 Z= Unknown / Never tested, skill level unknown

"These assessments are based on how these horses respond in their current environment and any change in their current environment, riders, diet, etc could have an effect on the horses' immediate performance. Horses need time to adjust when moved to new surroundings. We highly recommend you visit, spend time with the equines and evaluate the equine before making a decision"

General Health	Score		Score
Maintains weight well	A	Teeth in good condition	A
Hooves in good condition	A	Overall is Healthy	A
Explain overall health: Galina is young and very healthy. Her teeth and hooves are in excellent shape.			

Social Skills	Score		Score
Responds well to people	A	Gets along with mares	A
Can touch face	A	Gets along with geldings	A
Can touch ears	A		A

Explain overall socialization: Galina is in a mixed herd and likes to be head mare. She is bossy, but getting better all the time. She will kick at other horses when we are putting them in stalls at feeding time; however, she usually makes sure she gets in her stall first. Very food motivated.

Ground Manners	Score		Score
Easy to catch	A	Picks up feet for farrier	A
Easy to load	A	Easy to Bathe	A
Easy to halter	A	Easy to Trim	A
Easy to lead	A	Easy to Fly Spray	Z
Ties	A	Kicks	No

Explain manners: She is very friendly. An "in your pocket" kind of horse. She stands well for tacking, mounting. Loves to be bathed. Great with the farrier and vet. Easy to worm/shots.

Riding Skills	Score		Score
Stands while being tacked	A	Walks	C
Stands while being mounted	A	Trots	Z
Easily moves out	C	Lopes/Canters	Z
Does well on trails	Z	Runs	Z
Does well in arenas	Z	Backs up	Z

Explain overall training: July 2011: We have started a training program and she is very cooperative. In fact, she loves her work. She lunges nicely and has a wonderful slow canter. She has been backed, but only walked around. She is built to last. Great confirmation, solid horse and is still growing. Will have some videos soon.

Explain history if known: No prior information known before coming into Habitat for Horses. Galina and Max are very attached to each other. They both came from Florida to Texas. Update – July 2011 –

Habitat for Horses

Your Equine Protection Organization

Since being in our mixed herd, Galina's loyalties have changed and she is no longer glued to Max's hip. She likes to hang out with the older mares.

Updated: July 2011
